

NRCAN Subsidy for HRAI Virtual Online Classroom Training Limited Time Only - Act Soon!

The physical distancing and financial strain imposed by the COVID-19 virus have caused hurdles for effective HVACR industry training. In an effort help overcome these hurdles, HRAI has some exciting news. Natural Resources Canada (NRCan) has agreed to provide a generous subsidy to all HVACR professionals seeking to participate in HRAI training courses!

Although our physical classrooms may be closed for the pandemic, this initiative enables HRAI to continue meeting the industry's training needs during the COVID-19 pandemic while reducing financial barriers for trainees and industry employers. Our partnership with NRCan will provide some extra financial support directly to industry personnel who want or need to access this important training.

Thanks to this new subsidy from NRCan, we're now able to offer our Virtual Class training courses at **25 percent less** than our standard fees for a limited time; **between May 19th and June 30th, 2020**. Here's a list of the virtual courses this subsidy can be applied to. Click on each link for more course information:

- [Indoor Air Quality for Residential & Commercial](#)
- [Residential Ventilation Using Section 9.32 of the National Building Code](#)
- [Residential Ventilation Using Section 9.32 of the Ontario Building Code](#)
- [Residential Ventilation Using Section 9.32 of the BCBC](#)
- [Residential Ventilation Using CSA F326](#)
- [Depressurization of Residential Systems](#)
- [Residential Heat Loss/Heat Gain Calculations](#)
- [Residential Air System Design](#)
- [Small Commercial Heat Loss/Heat Gain](#)

We encourage all HVACR professionals who are interested to secure your space [today](#) and take advantage of this limited-time offer!

Please note; the NRCan subsidy cannot be used in conjunction with our *Test Your Knowledge 10% course discounts*, or any other discounts/offers. Other offers and discounts may be used for future training courses once the NRCan subsidy has expired.

To enroll, please visit the [HRAI Training page](#). For more information feel free to contact Trish Thompson at pthompson@hrai.ca, or 800-267-2231 x 241.
